

- Preprocessed data with tokenization, vectorization (Keras TextVectorizer), and vocabulary building (14,022 unique words); integrated into a full-stack app (React frontend, Flask/Node backend); published in Journal of Soft Computing Paradigm (March 2024).

SKILLS

Languages	Python, C, C++, Java, SQL
AI/ML	Pytorch,Pandas, NumPy, Seaborn, TensorFlow, PyTorch, Scikit-learn, Keras, LangChain, LangGraph, HuggingFace transformer, CNNs, RNNs, Transformers, Linear/Logistic Regression, Clustering (K-means, DB-SCAN)
Tools	Googel Cloud, ARCC Computing cluster
LLMs	Opensource LLM and VLM,Gemini Finetuning
Soft Skills	Communication, Team Collaboration, Time Management
